Presents

## Unmanned Aerial Vehicles & Drones

A Talk By

### Robin Phayre

Retired Lt Col Robin Phayre explains the use of drones or UAV's on the modern battlefield, and the rapid technical advances, including AI. Used by the military, for attack or reconnaissance, with camera's or ground penetrating radar, this technology also has a more peaceful use, such as medical assistance, SAR, logistic resupply and archaeology.

This promises to be both an informative and  
thought-provoking evening.

***Wednesday 3rd December***

***19:30 for 19:45 start***

**Non-members always welcome**  
**(£5 on the door)**

**Romsey Conservative Club, (First Floor)**  
**13, Market Place,**  
**Romsey.**
